Are you sick of using your math textbook? Chances are your students are bored, too!

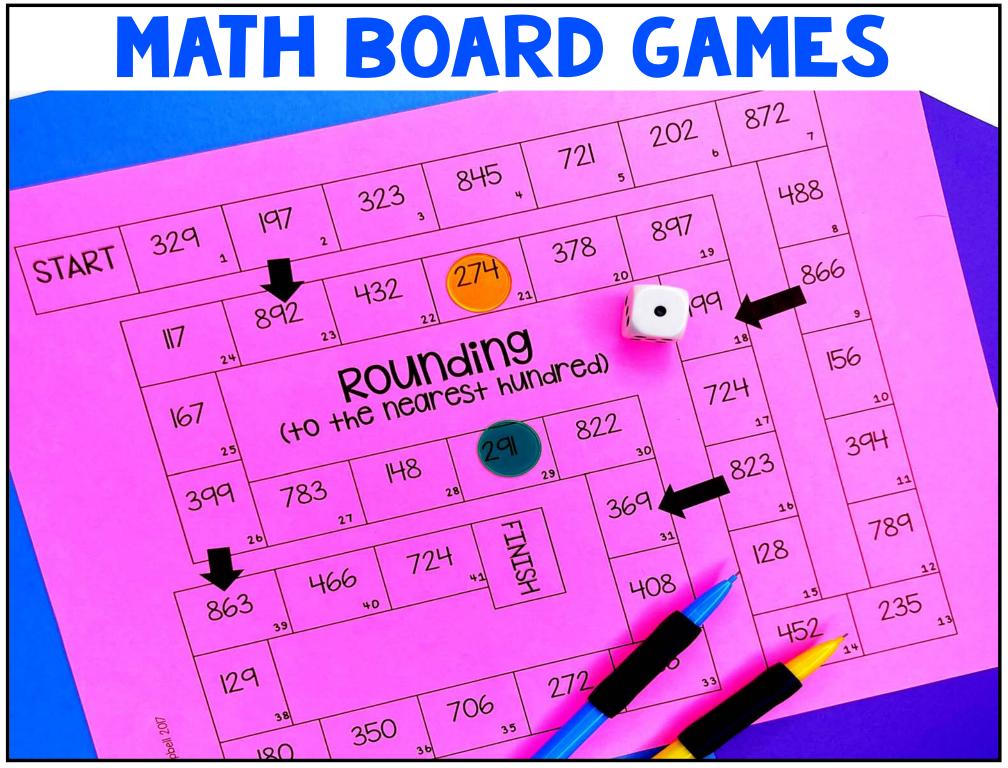

Don't spend any more time planning, searching, or brainstorming. Everything you need is in this easy to use download!

This resource includes:

- Directions Page
- Teacher Tips
- Board Game with 41 Questions
- Student Recording Sheets
- Answer Key

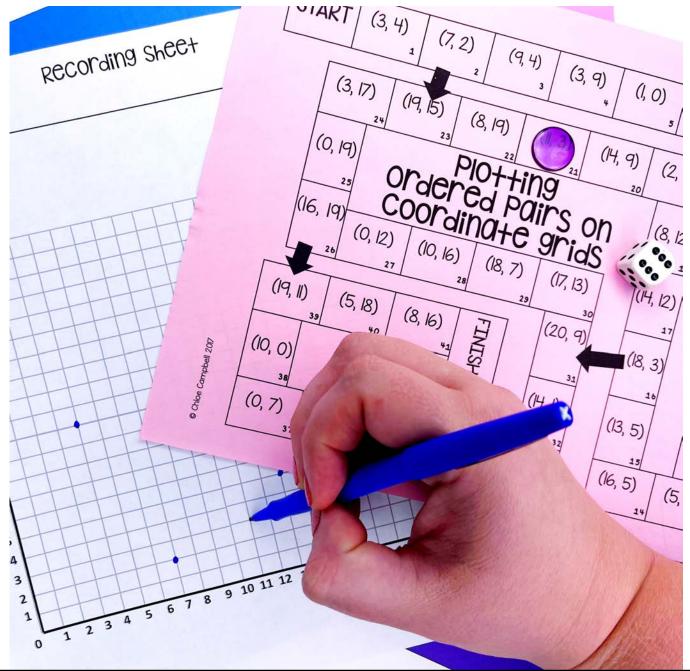

Teachers Like You Say:

****** "These are great for small group stations! What a fun task card adaption. Students get to play a fun and competitive board game, but they also get to practice learning. Plus, the recording sheet makes it easy to grade and monitor student progress; they aren't just playing, they are actively learning and participating with evidence of ability. Great resource!" - Anonymous

MATH BOARD GAMES

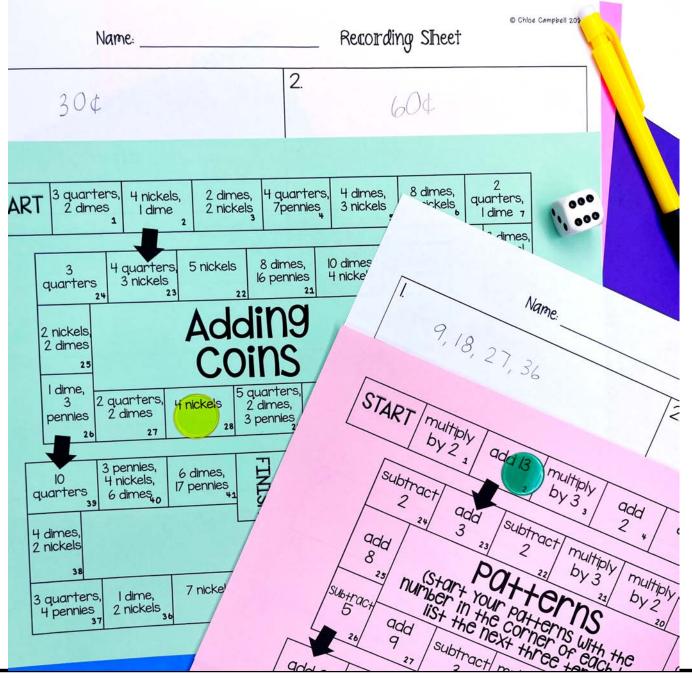

What's the best way to use this board game?

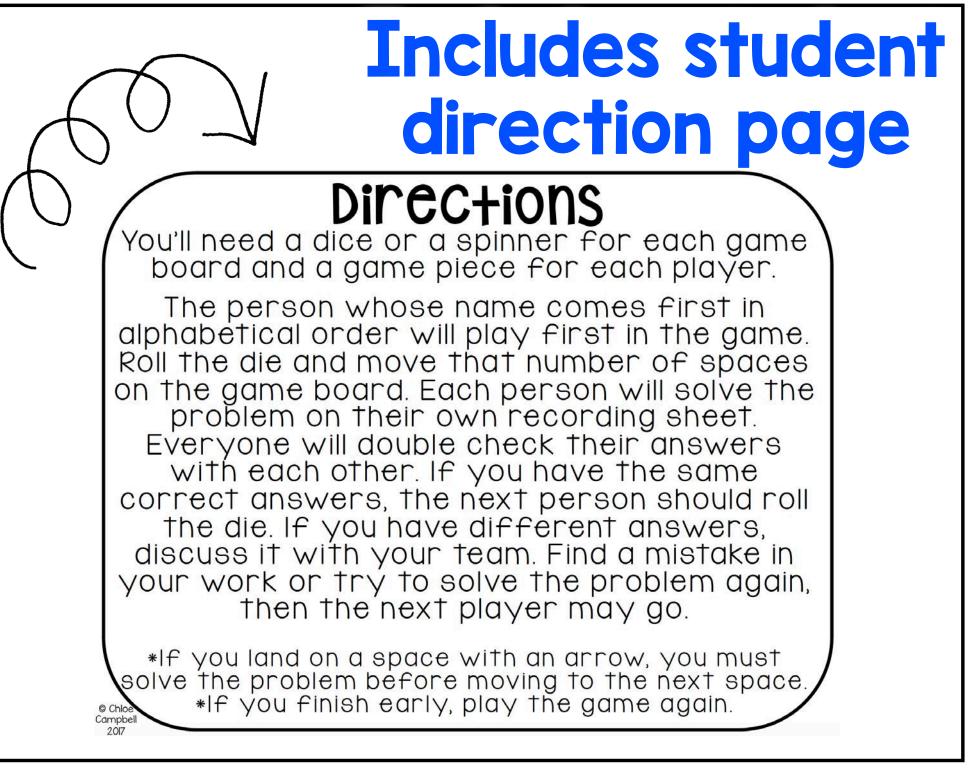

- Math Centers or Stations
- Whole Group Practice
- Morning Work
- Early Finisher Activity
- Substitutes
- Send Home to Engage Student Families

Tips for Playing Math Board Games:

- Read the directions to the students and model how to play.
- Be prepared with dice/spinner and game pieces for each player (paperclips, pencil top erasers, pieces from another game, etc.)
- Every student should solve every problem not just the person who rolls.
- Create groups of 2–4 students. The lower number of students means the more focused students are while playing.
- Remind students that the focus is not playing the game but that's just an added bonus! The focus should be on practicing math skills.
- Show students how to compare and discuss answers. Did you both get the same answer? If students get different answers, ask them to solve the problem using a different strategy or help coach each other through the problem.

MATH BOARD GAMES

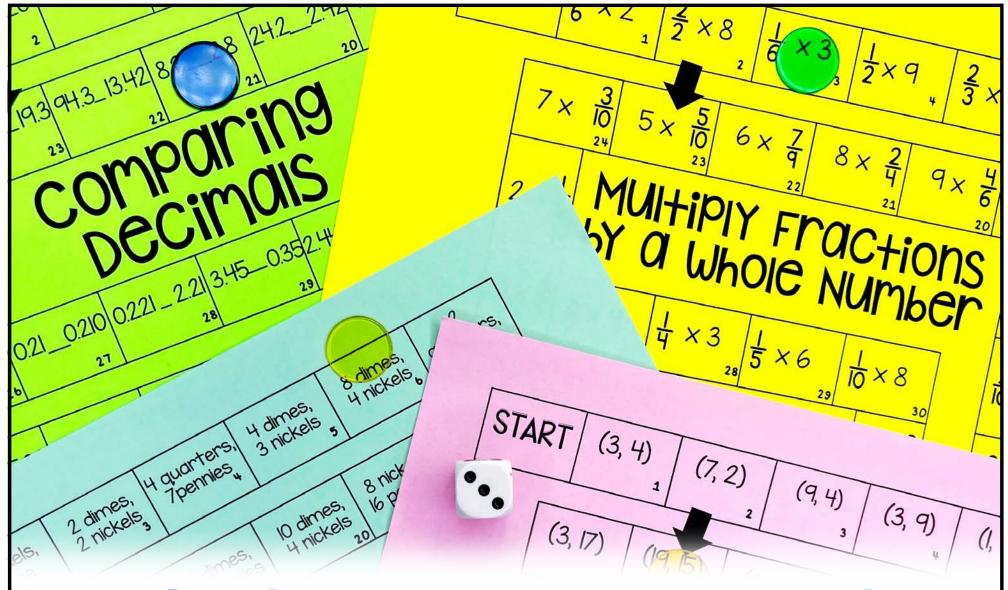

Why Board Games?

Research shows that challengebased gamification in the classroom leads to an increase of 34.755% in student performance (ScienceDirect, 2020).
