

Each Board Game Includes:

Directions

Directions

You'll need a dice or a spinner for each game board and a game piece for each player.

The person whose name comes first in alphabetical order will play first in the game. Roll the die and move that number of spaces on the game board. Each person will solve the problem on their own recording sheet. Everyone will double check their answers with each other. If you have the same correct answers, the next person should roll the die. If you have different answers, discuss it with your team. Find a mistake in your work or try to solve the problem again, then the next player may go.

*If you land on a space with an arrow, you must solve the problem before moving to the next space.
*If you finish early, play the game again.

Answer Key

Recording Sheets

Use the recording sheet that works best for you and your students!

5 different versions of recording sheets. Pick the style that works best for you and your students!

You provide the dice and game pieces!

writing Decimals

Multiplying & Dividing Powers of Ten

Adding & Subtracting Decimals

Multiplying Powers of Ten

Multiplying Whole Numbers (3x2 and 3x3)

Rounding Decimals

Dividing Decimals

Multiplying Decimals

Multiply Whole Numbers (2 digit x 2 digit)

Number and Operations in Base Ten

Operations and Algebraic Thinking

writing/solving Expressions

Order of Operations

Patterns

Relationship Between Digits

Comparing Decimals

No prep
game
boards!
Just
print
and go!
