

Multiplication Facts

SOLVE THE ROOM

Name: _____

Directions: Find the card that matches each shape and solve the problem. Write the answer in the box that matches the shape.

© Chloe Campbell

Students find problems around the room & write the answers on their recording sheet.

What's Included?

- Teacher Directions & Tips
- 20 Problem Cards
- Student Recording Sheet
- Extension Activity: Create a matching word problem
- Answer Key

20 Problems

3×8

A black and white line drawing of a deciduous tree with a thick trunk and several branches with leaves, positioned in the center of a yellow card.

4×5

A black and white line drawing of a pumpkin with a short stem and a single leaf, positioned in the center of an orange card.

5×6

A black and white line drawing of three sunflowers with large heads and long stems, positioned in the center of a yellow card.

9×5

A black and white line drawing of a scarecrow wearing a hat and a long coat, positioned in the center of an orange card.

9×4

A black and white line drawing of a single maple leaf, positioned in the center of a yellow card.

6×4

A black and white line drawing of a wooden cart filled with several pumpkins. A small sign on the front of the cart lists prices: 'small: .50', 'medium: 1.00', and 'large: 1.50'. The cart is positioned in the center of an orange card.

Extension Activity

Students create a
matching word
problem.

Name: _____

Create a Matching Word Problem

Directions: Use the numbers from the cards to write your own matching word problem.

Name: _____

Create a Matching Word Problem

Directions: Use the numbers from the cards to write your own matching word problem.

How to Use:

1. Print out each page. You can print on cardstock and/or laminate to help the cards last longer.
2. Cut out each card. There are 4 to a page.
3. Place the cards around the room or tape the cards to the walls, back of student chairs, doorways, etc.
4. Give students a clipboard. They'll walk around the room to find the cards.
5. Students will find the card that matches each shape. They'll solve the problem then write the answer in the box that matches the shape.

Students are up and moving around the room while solving math problems. That's a WIN!
