

**Searching for ways to keep students engaged while practicing volume of rectangular prisms? Add these fun activities to your classroom!**

Don't spend any  
more time planning,  
searching, or  
brainstorming.  
Everything you  
need is in this  
easy to use  
download!

[illegible]

**How to Play:** Hold a paper clip on the spinner by using the tip of a pencil. Spin the paper clip in the top spinner first. Write that number under length. Spin the paperclip in the second spinner, then write that number under width. Spin the paperclip in the third spinner and write that number under height. Multiply the three numbers, then write your answer in the volume column.

# WHAT'S INCLUDED?

- Teacher Tips
- Directions Page
- Volume Formula Cards
- 6 no-prep printable volume games:
  - Game #1: One Digit Length, Width, Height
  - Game #2: One Digit Length, Height; Two Digit Width
  - Game #3: One Digit Height; Two Digit Width and Length
  - Game #4: Two Digit Length, Width, Height
  - Game #5: One Digit Length, Two Digit Width, Three Digit Height
  - Game #6: Two Digit Length and Width; Three Digit Height

# ENGAGING VOLUME ACTIVITIES

## How to Play:

1. Use a paperclip and a pencil to create a spinner.
2. Spin a number in the top circle. Spin a number in the bottom circle.
3. Calculate to find the volume.
4. Record the answer on the recording sheet.

# CENTERS

## Calculating Volume

[illegible]

Length

Width

Height

How to Play: Hold a paper clip on the spinner by using the tip of a pencil. Spin the paper clip in the top spinner first. Write that number under length. Spin the paperclip in the second spinner, then write that number under width. Spin the paperclip in the third spinner and write that number under height. Multiply the three numbers, then write your answer in the volume column.

ex. 3	83	2	498 units <sup>3</sup>

paper clip in the top spinner first. Write that number under width. Spin the paperclip in the third spinner and write your answer in the volume column.

### Volume Formulas

$$V = \text{Length} \times \text{Width} \times \text{Height}$$

$$V = L \times W \times H$$

or

$$V = \text{Base} \times \text{Height}$$

$$V = B \times H$$

### Volume Formulas

$$V = \text{Length} \times \text{Width} \times \text{Height}$$

$$V = L \times W \times H$$

or

$$V = \text{Base} \times \text{Height}$$

$$V = B \times H$$

### Volume Formulas

$$V = \text{Length} \times \text{Width} \times \text{Height}$$

$$V = L \times W \times H$$

or

$$V = \text{Base} \times \text{Height}$$

$$V = B \times H$$

### Volume Formulas

$$V = \text{Length} \times \text{Width} \times \text{Height}$$

$$V = L \times W \times H$$

or

$$V = \text{Base} \times \text{Height}$$

$$V = B \times H$$

# IDEAS FOR USE

- Teacher Table Practice
- Whole Group Practice
- During Math Centers/Stations
- Everyone gets the same game to practice
- Everyone gets the skills they need to practice (differentiated)
- Send home to practice with family members
- Morning Work
- Early Finisher Games

# **PURCHASE NOW TO INCREASE STUDENT ENGAGEMENT!**

“What a way to engage students!”

“Great product. Love hands-on learning!”

“The kids love these! Thank you!”

“I love how there are many different ways to use this  
as differentiation!! Thank you!”

“Great activities to review and practice!”
