

# SLIME

## Includes:

- 5 different slime recipes
- 1 question book for students
- Tips & suggestions for teachers

# Materials Needed

## Fluffy Slime:

- 1 cup of white school glue
- 3 cups of shaving cream
- 5 tablespoons contact lens (saline) solution
- Food coloring (optional)
- Glitter (optional)
- Large bowl to mix

## Detergent Slime:

- $\frac{1}{4}$  cup of white school glue
- 1 tablespoon of liquid laundry detergent
- Food coloring (optional)
- Large bowl to mix

## Glitter Slime:

- 1 bottle of glitter glue
- 1 teaspoon of water
- 1 cup of warm water
- 1 teaspoon of Borax
- Large mixing bowl
- Small mixing bowl

## Magnetic Slime:

- $\frac{1}{4}$  cup of white school glue
- $\frac{1}{4}$  cup of liquid starch
- 2 tablespoons of iron oxide powder
- rare earth magnets
- large bowl to mix

## Borax Slime:

- 1 ounce of white school glue
- $\frac{1}{4}$  cup of water
- $\frac{1}{4}$  cup of Borax
- Food coloring (optional)
- Large bowl to mix

These recipes were designed to create enough slime for one group of 4-5 students. I would do these as either whole class (each group creates the same slime at the same time) or where students rotate through stations to create different slimes.
