Multiply Fractions
BUNDLE!

You'll Receive:

- Printable Math Board Games (each with 20-40 problems)
 - Multiply Fractions by Whole Numbers
 - Multiply Fractions by Fractions
 - Multiply Fractions to Find Area
- Printable Leveled Problems
 - 6 High Level Problems
 - 6 On Level Problems
 - 6 Low Level Problems
- Printable Spin and Answer Game
 - 8 Fraction Spin & Answer Games (Adding, Subtracting, Multiplying, Dividing Fractions)
- Printable Matching Puzzle Piece Game
 - 20 Matching Puzzles

You'll Receive:

- Teacher Tips
- Student Directions
- Recording Sheets for Every Activity

Students won't
even realize they
are learning!

START $41 \times \frac{2}{4}_1$ $\frac{3}{8} \times$

6

$$\frac{3}{5} \times \frac{1}{7}$$

1

$$\frac{2}{5} \times 50$$

Fraction Mastery - Multiplication B

[illegible]

© Chloe Campbell 2015

Play: Hold a paper clip on the spinner by using the tip of a pencil. Spin the paper clip in the top for first. Write that fraction under factor. Spin the paperclip in the second spinner, then write that fraction under factor. Multiply the two fractions, then write your answer in the product column.

Spin & Answer Games

Teacher Tips

- Read the directions to the students and model how to play.
- Be prepared with (paperclips, pencils, etc.) for each player.
- Every student should have a game board who rolls.
- Create groups of 2-4. The more the better.
- Remind students to double check their answers just an added step.
- Show...

DIRECTIONS

You'll need a dice or a spinner for each game board and a game piece for each player.

The person whose name comes first in alphabetical order will play first in the game. Roll the die and move that number of spaces on the game board. Each person will solve the problem on their own recording sheet. Everyone will double check their answers with each other. If you have the same correct answers, the next person should roll the die. If you have different answers, discuss it with your team. Find a mistake in your work or try to solve the same problem again, then the next player may go.

Teacher Tips & Student Directions

Student Directions

Teachers Like You Say:

★★★★★ Extremely satisfied

My students love playing games and a simple, easy prep game like this is a great addition to math centers, early finisher activities, and review days.

★★★★★ Extremely satisfied

This was a hit during centers. All students were engaged, and better yet- learning! Love this!

★★★★★ Extremely satisfied

These are great for small group stations! What a fun task card adaptation. Students get to play a fun and competitive board game, but they also get to practice learning. Plus, the recording sheet makes it easy to grade and monitor student progress; they aren't just playing they are actively learning and participating with evidence of ability. Great resource!

Student Recording Sheets

What's the best way to use these games?

- Math Centers or Stations
- Whole Group Practice
- Morning Work
- Partner Activity
- Early Finisher Tasks
- Substitutes
- Send Home to Engage Student Families

Why Board Games?

Research shows that challenge-based gamification in the classroom lead to an increase of 34.755% in student performance (ScienceDirect, 2020).
