

Ready to ditch the math textbook?

Your students will absolutely love these hands-on, highly engaging math activities!

Teachers Like You Say:

“Great resource that made learning fun!”

“Fun! I used this as a partner activity and the kids loved it.”

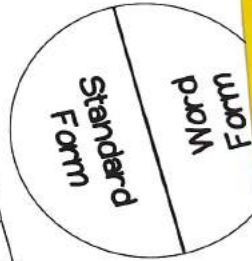

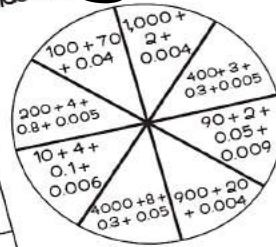

“We made games for the class and invited parents in to play the game with their child.”

Holds students **accountable** while keeping them engaged!

Name: _____ Standard, Word, Expanded Form

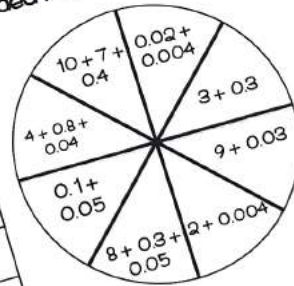

Expanded Form	New Form
$2 + 0.1 + 0.09$	Two and nineteen thousandths

How to Play: Hold a paper clip on the spinner by using the tip of a pencil. Spin the paper clip in the top first. Write that decimal under the first column (word form). Spin the paper clip again. Write that decimal under the second column (standard or expanded form).

Name: _____ Standard, Word, Expanded Form - Decimals - A

Expanded Form	New Form
$2 + 0.1 + 0.09$	Two and nineteen thousandths
$10 + 7 + 0.4$	Seventeen and four tenths

© Chloe Campbell 2015

Spin the spinner by using the tip of a pencil. Write that decimal under the first column (word form). Spin the paper clip again. Write that decimal under the second column (standard or expanded form).

Ideas for Use:

- Centers during writing decimals lessons
- Workstations to use throughout the school year as spiral review
- Engaging morning work activities
- Early finisher activities
- Whole group practice
- Substitute
- Send home to engage students' families

Highly Engaging & Hands On
